| 25 | VII.  | Adjournment   |

of Gatlinburg is -- has been devastated by fire.

I think, as of this morning, they've

identified approximately 1,800 homes that have been destroyed and I think at present, there are 14 who perished in the fire. One of those -- let me speak from a personal standpoint. One of those was an employee of Dollywood, a gentleman who was a ride mechanic, and he lost his wife and two children. Now, if you've seen any of that on television, it's heartbreaking, and we're doing everything we can, as a company, to take care of him.

And then I hope that you have seen where Dolly Parton has put together My People Fund. And let me ask you to do this; I'm not a bit ashamed or embarrassed to ask you to do this: So if you have some extra money that you don't need, please donate to the My People Fund. It does not go to Dollywood or whomever; it goes directly to those people who are affected -- or were affected or continue to be affected by the fire. She put together a deal where they're going to pay each family or each, I guess, residence, whatever, \$5,000 a month for the next six months. And obviously, if it needs to go further, that's

obviously a consideration. But again, I'm not embarrassed or ashamed to ask you to do that. So please consider that.

And again, there are a lot of people in Sevier County who are hurting and need your help, and the second part of that, they need your prayers. And so please consider that, as well. That's almost as important. It's probably even more important. So with that being said, again, that's my impassionate plea.

With that being said, if you will, let's stand. We'll do a moment of silence, if you'll indulge me and then we'll do the pledge.

And Chris, will you do the pledge when we finish the moment of silence.

MR. FARMER: Yes.

(Moment of silence observed.)

CHAIRMAN FOX: Mr. Farmer, if you

will.

(Pledge of Allegiance recited.)

CHAIRMAN FOX: Thank you all. Item

Number four on the list: Announcements. In the

event of an emergency or natural disaster, security

personnel will take attendees to a safe place in the

building or direct them to exit the building on the

Rosa Parks side. And I always ask the question, which way are we going to go? That way. Okay.

Just so everybody knows.

The annual conflict of interest.

This is the annual deal that we have to sign off on. Each of you -- each of the Board members should have that in their packets somewhere, and we need to get that to you today before we leave; is that correct?

MS. BENNETT: Yes. And just make sure you sign -- there should be two pages on the back. There's just one saying that you received the disclosure and one is the actual disclosure. So --

CHAIRMAN FOX: Let's just take a couple of minutes and do that real quick so that we don't --

MR. MOORER: Did you find it?

MR. MOORE: Not yet, but I'm looking.

CHAIRMAN FOX: Yours is right here.

The last two pages.

2.3

And while you all are signing that,

let me also say that -- about the fire in

Gatlinburg. I've been in the so-called emergency

services building -- or business for 45 years. I

know I don't look that old, but I've been there a

long time and I've seen a lot of things happen in my life but never anything like that.

2.3

I've also -- I will also tell you that I've never seen the support that the fire service and the emergency services people received from the various fire departments across the state. It was literally overwhelming. I mean, if you've never seen anything or never been anywhere like that or seen anything like that, it was just overwhelming.

I saw two fire trucks -- and we were headed up to the cabins. We had -- ma'am, can you shut that off for -- don't take this part of it.

(Whereupon, a discussion off the record occurred.)

CHAIRMAN FOX: All right. We're back on now. We're back on the record. Okay. We're good to go if you'll pass those over. Thank you.

All right. I believe we're ready for Item Number six, and I believe that's the Elevator Unit report.

MR. FARMER: Alrighty. I kind of go over the same stuff every time, but I'll do it again. We currently have 26 field inspectors and myself. We do have one route over here into

Nashville that we plan to fill really soon. All the local inspectors have really stepped up and assisted with that route. As you all know, Nashville's booming right now, so downtown's not a great place

to have a vacant route, but we're handling it.

2.3

All these numbers are through the calendar year. We've had 611 construction permits pulled this year. 154 of them will be authorizations to existing elevators or escalators. 457 of them are new installs. We've performed about 21,600 inspections this year with our group. We have 514 pending installation permits. That's elevators that are being installed. We've accepted 461 new ones this year. And our number's up to a little over 14,000 units that we do inspect. So -- that we inspect twice a year. That's all I've got on numbers.

Just to let you all know, I will be heading to Gatlinburg at the end of this week. Of course, we lost the Sky Lift, if y'all are familiar with it. The top side of the Sky Lift burned up. We're not real sure what all the Ober tram damage has been done to it, but we're going to do some testing on it to make sure that it's safe before we open it back up to the public. I'm

sure we lost elevators. So we're going to --

CHAIRMAN FOX: I'm positive you did.

MR. FARMER: Yeah. Me and the local inspector, the field inspector up there, are going to go around, checking every one of them, make sure they're safe before they get back in operation for

CHAIRMAN FOX: Okay. And

So wish us luck. That's all I got.

Ms. Jefferson?

the public.

2.3

MS. JEFFERSON: Okay. The Amusement Device Unit completed applications received through December 2nd, which was last Friday: 129. The number of companies issued permits to date -- or through that date, December 2nd, 2016, is 172.

Number of payments received, 137; the amount of revenue processed, \$89,600. The number of companies -- number of amusement device companies where permits were issued, 172. The number of accidents reported since the beginning of the fiscal year, 11. The number of noncompliant companies referred to the proper authorities for Class C misdemeanors are 13. And the number of penalties collected under the public chapter, the new public chapter is one reported, and that was reported back in July when the law

became effective.

2.3

The Amusement Device Unit will have four new employees as of December 19th, 2016, Monday, December 19th. We will have an Amusement Device Manager, as well as three compliance officers. We'll have one compliance officer located in Davidson County, one in Gibson County, and one in Sevier County. Of course, the manager will be located here, along with the compliance of Davidson County -- compliance officer here in this office.

All of the compliance officers, as well as the manager, have law enforcement, military, as well as quality control experience, which is a plus. So as a result of the approved State funding, we were able to hire four employees, and we're waiting for HR so we can hire the last employee, which is an administrative support person.

Okay. Okay. As we've indicated before, these compliance officers will help to locate noncompliant companies. They will act as an extra layer of protection and oversee third-party inspections. Hopefully, after they become certified, they'll be able to assist with

inspections. And one of the third-party inspectors sent in information. I've provided that to the Chairman who's distributed that to you for your review.

2.3

The first memo talks about go-kart tracks. I know that's something that came up in the workshop, so I wanted to pass that on, because he provided a contact person. If we have additional questions about go-karts, this person is, from what I understand, an expert in the industry. The other memo is about inflatables and some of the regulations, new regulations and some of the areas that they've asked the inspectors to focus in on. So if you take a look at that, if you have any more questions, we may want to have the third-party inspector come in and actually testify as to those things at some point. And that's --

CHAIRMAN FOX: Can we talk about this just a second on Mr. Pandolfo?

MS. JEFFERSON: Sure.

CHAIRMAN FOX: The NAARSO group -either one or two times a year, they go to
Pennsylvania and Joe, Mr. Pandolfo, is in the
Poconos and they have a school up there. Again,

NAARSO -- it's a 40-hour training course. And Joe teaches there, but also, it would be -- this is a suggestion. You don't have to write this in stone. It's a suggestion. If we were to send those folks up there, they could at least get some of their 40-hour training as soon as possible and they could talk with Joe Pandolfo at the same time.

2.3

He would -- I can assure you -- I mean, I can call him on the phone and ask him. He will give them his time, you know, out of class, whatever, to teach them or tell them anything they want to know about go-karts.

MS. JEFFERSON: Okay. Well -- and that is an idea. And just to let you all know, we have contacted all three agencies. Carlene has done that, and she is actually working with the three agencies so that they can send someone to the central office for training. And so that's what they're going to do the first week or so. They're going to have someone come down from NAARSO, from AIMS, as well as ACCT here in this office. But we will keep that, you know, under consideration for future reference.

The first thing that we'll do is to actually acclimate them to State government,

1 because the manager is coming from private 2 industry. Some of the others are coming from state agencies, but there are other states. 3 4 what we want to do is to actually teach them, as 5 far as the government is concerned, because there are certain programs they have to become familiar 6 7 with, like the Edison program that we enter our time in. Also, the computer program that we 8 9 currently have. 10 So yeah, we basically put together a 11 training for them for the first couple of weeks, 12 but that's definitely something that we could consider -- will consider as far as go-karts are 13 14 concerned. 15 CHAIRMAN FOX: And you have a 16 training plan in place for them. 17 MS. JEFFERSON: Yes. We're working 18 on a training plan. Yes. 19 CHAIRMAN FOX: Okay. Could I ask you 20 to copy this board with it? 21 MS. JEFFERSON: Sure. 22 CHAIRMAN FOX: Okay. 23 MS. JEFFERSON: We plan to put 24 together an agenda. In fact, Carlene's working on 25 it now, so we'll be happy to send you a copy of the

1 agenda.

2.3

CHAIRMAN FOX: Just see what they're going to be training on and what they're going to be doing. The gentleman -- or lady, gentleman, whomever, from the private sector, the manager, what type of business was that person in?

MS. JEFFERSON: Quality control. It was an industry. None of the folks have amusement device industry background because of the pay. It was very difficult to get folks from the industry. We had three persons who turned down positions because they didn't pay enough. And so all of these persons have quality control. The manager has quality control, which is really good from a manager's perspective. And the others have law enforcement and military experience.

CHAIRMAN FOX: In your training plan, where are they going to obtain the experience in inspecting amusement rides?

MS. JEFFERSON: Well, they're going to be trained by experts from the industry. A NAARSO representative, ACCT representative, as well as an AIMS representative will come on site and provide the original training. We hope to train them every quarter.

25

So once they come on board and we give them the introduction, they receive the introduction from these experts, then we can set up a training plan. We can move forward. first week, we wanted to at least put them in a position so they could talk with folks from the industry. They can come in and explain what the industry requires. I believe Mr. Stock -- are you going to be one of those?

> Yes, ma'am. MR. STOCK:

MS. JEFFERSON: Could you speak to that as to what you plan to --

MR. STOCK: As far as our section of the industry, we're going to do -- I think we have two or three hours to spend with them. And my intent is to cover a lot of the same material that I presented to the Board, as well as the document -the content of the document that we put together for terminology and all those kind of things. Really just kind of giving them a good perimeter on the uniqueness of our industry, kind of what its complexion is in the state and then basically have -- hold off probably 30 minutes just for questions so -- just so that they can get a gauge of, you know, whether -- knowledge base or

1 experiences. Who knows? They might have, you know, 2 been involved in some of those experiences, especially law enforcement. I mean, there's many 3 times they have team development stuff that they 4 5 might have experienced. So that's my -- from my place in it, 6 7 that's what I'm looking to do. MS. O'CONNOR: Can I ask a question? 8 9 Is this training exclusively classroom-type training or is it also field training, as well? 10 11 MS. JEFFERSON: Well, actually, 12 during the first week, we're just trying to 13 introduce them. We're going to have to put them in 14 touch with people who can actually train them in the 15 field. I'm not an inspector, so what I want to do 16 is put them in touch with people from these 17 different agencies who can actually train them. 18 Originally, Kelly, I believe it'll be 19 It won't be in the field until they get 20 the introductory training. 21 MS. O'CONNOR: Will you --22 MS. JEFFERSON: And then we're going 2.3 to move forward. Hopefully, after three months or 24 so after they settle in, I want them to all come to

the next board meeting in March so they can --

25

1 actually, so you all can meet them and you can ask 2 them questions. But after that time, then that will start the next training phase. This is going to be 3 continuous training over a course of a year. 4 5 MS. O'CONNOR: I just want to make sure they get field training before they're actually 6 7 out there doing the job. 8 MS. JEFFERSON: Oh, yes. Definitely. 9 MS. O'CONNOR: Okay. 10 MS. JEFFERSON: Definitely. We were 11 not going to just -- I mean, they can't inspect anyway. You have to become certified --12 13 MS. O'CONNOR: Right. 14 MS. JEFFERSON: -- before you can 15 inspect. 16 MS. O'CONNOR: And I realize that. 17 MS. JEFFERSON: But we're going to do 18 it as soon as possible. I don't want you all to 19 think we're going to sit on our hands and they're 20 not going to get the training, because they will get 21 the training. But in addition to industry training, 22 there's other training that has to take place --2.3 MS. O'CONNOR: Of course. 24 MS. JEFFERSON: -- to acclimate them 25 to government.

25

MR. MOORER: Ms. Jefferson, do any of these people have any industrial safety background?

MS. JEFFERSON: The quality control; I would say that that person definitely does. And that's going to be the manager. The other persons, like I said, military, we would have to -- I would prefer -- I don't want to say that they don't. I don't have their resumes in front of me at this point. But I will give you all an opportunity to ask questions, probe, when they come in in March. We can do that. We'll have a better idea once we get them all together and we go through the introduction training -- introductory training. you will have an opportunity to ask them questions in March.

CHAIRMAN FOX: How much -- I'm sitting here trying to think of a way to help you. How much money do you have set aside for them to I mean, like, per diem and rooms and meals, and so forth and so on.

MS. JEFFERSON: We set aside a certain amount of moneys. I don't have the budget. I don't think I have a budget in front of me, but I'll have to refer to the budget to see how much we set aside for --

they'll be here -- again, they'll be here in this 1 2 office, you know, for the first couple of weeks. They'll be here in this office, because we have to 3 4 obtain -- actually, Chris is helping obtain State 5 offices in every county, as well as equipment. have to prepare their equipment. And we're 6 7 receiving temporary equipment at this point, because it takes a longer period of time to order their 8 9 permanent equipment. It won't be back in time. So we're getting their equipment together, their State 10 11 offices -- there's a lot that goes into this 12 preparing for them to come on board. CHAIRMAN FOX: I understand. 13 Orientation into --14 15 MS. JEFFERSON: Yes. 16 CHAIRMAN FOX: -- the State 17 government is -- well, never mind. 18 We'll talk about this offline, but I 19 want to -- I'm just trying to figure out, again, 20 how I can help you train those folks at or put 21 them with what I consider to be Class A inspectors 22 where they are -- or actually, they're class 23 three. The first week -- well, we'll talk 24

about it offline, but again, I want to help if I

25

can and offer you an opportunity for them to be 1 with what I consider the best in the business as 2 inspectors. I just have to -- I would have to 3 4 work out the details and make sure that those 5 folks would be okay with bringing you -- bringing them up to Dollywood and letting them go through 6 7 with our ride -- the ride inspectors that come in to do our inspections. 8 9 MS. JEFFERSON: Would that provide 10 them certified training? 11 CHAIRMAN FOX: No. But --12 MS. JEFFERSON: Just some additional 13 training. 14 CHAIRMAN FOX: They don't certify. 15 MS. JEFFERSON: Okay. 16 CHAIRMAN FOX: There's only three 17 certifying agencies in our world and -- NAARSO, 18 AIMS, and ACCT. 19 MS. JEFFERSON: So none of them are NAARSO, AIMS. 20 21 CHAIRMAN FOX: Oh, they're -- that's 22 what I said. They're level threes. And the 2.3 gentleman who owns the company has been the head of 24 both AIMS and -- well, part of NAARSO at one time. 25 Again, level three, three As.

1 MS. JEFFERSON: That's good. 2 CHAIRMAN FOX: But it may be that we could get them to let those guys tag along with 3 them. And they're there for a week. So -- but 4 5 anyway, we'll discuss it further. 6 Anything else in the report? 7 MS. JEFFERSON: No. That's it. CHAIRMAN FOX: 8 Okay. 9 MS. JEFFERSON: Thank you. 10 CHAIRMAN FOX: All right. 11 business. Next item would be recommendations from Was it 1st of November, sometime back? 12 our meeting. 13 MS. BENNETT: October 26th. 14 CHAIRMAN FOX: That's why I have you 15 to keep me straight. The recommendations were, 16 number one, to delete T.C.A. 68-121-101(20), which 17 talked about the serious incident. We thought that 18 that may be a problem. And then we wanted to either revise T.C.A 68-121-101(21). We either wanted to 19 revise that or use the ASTM definition. 20 The ASTM 21 definition covers all the things that are in 20 --22 So the easy answer here may be just to 2.3 delete the serious incident. 24 From a legal standpoint, Mr. Bailey,

if you look at the variation of ASTM standard and

25

you look at the revised T.C.A that's on your 1 2 document there, there's not an appreciable There's not anything there that makes 3 difference. 4 a change, to my knowledge. The only defining 5 factor is a 24-hour hospitalization, which could be construed in the immediate admission and 6 7 overnight hospitalization. MR. BAILEY: Yeah. I wouldn't --8 9 just -- I wouldn't characterize it as a 24-hour --10 it just says overnight hospitalization. So a person 11 could come in at 10:00 o'clock at night, be admitted, spend the night, and be released at 10:00 12 13 o'clock the next morning. Yeah. I think that would 14 still qualify under this definition. 15 But are you asking to -- if you delete serious incident and --16 17 CHAIRMAN FOX: And just keep 21. 18 MR. BAILEY: And just keep 21. 19 CHAIRMAN FOX: It's already there. And this means that --20 21 MR. BAILEY: Okay. The current 22 language does say 24-hour --2.3 CHAIRMAN FOX: Yeah. 24 MR. BAILEY: I was looking at the 25 proposed.

1 CHAIRMAN FOX: Right. 2 MR. BAILEY: Yeah. I mean, there's really not any significant difference that I see 3 4 between the two -- the proposed and what's already 5 there at 121. We're talking about 21. 101, 21. CHAIRMAN FOX: Yes. 6 7 MR. BAILEY: Okay. CHAIRMAN FOX: Parentheses 21. 8 MR. BAILEY: All right. Got you. 9 10 I don't think there's a significant difference. 11 No. 12 CHAIRMAN FOX: And this stops -- that 13 if -- again, if Larry falls and breaks his leg 14 getting off the machine and he goes home in three 15 hours, we don't have to report that. "We" being the 16 amusement industry. 17 MR. BAILEY: Uh-huh. 18 CHAIRMAN FOX: If he stays the night 19 and has it operated on, then we have to report that 20 he's been admitted not just to the ER, but he's been 21 admitted. This also takes out the caveat about 22 being transported, because transported by an 2.3 ambulance was a trigger point in the serious 24 incident.

MR. BAILEY: Well, transported

25

doesn't necessarily mean by an ambulance. I mean --

CHAIRMAN FOX: That's my point.

2.3

MR. BAILEY: Yeah. The only thing
I'm looking at a little bit between 20 and 21 is 21
says, personal injury immediately reported to the
owner or operator as occurring on an amusement
device, where serious incident says, transported for
treatment of an injury as a result of being on, or
the operation of, the amusement device.

And 21, with it just saying occurring -- as occurring on an amusement device, I mean, that could be construed that even if they fall -- break their ankle getting off the machine, it occurred on the amusement device. I'm just trying to be -- you know, the definition in 20 is a little more specific that it has to be an injury as a result of being on, or the operation of, the amusement device, and 21 just says, as occurring on an amusement device. So it's a little broader, I think.

CHAIRMAN FOX: Well, my statement the last time when we looked at this was maybe the best thing to do is adopt the ASTM regulation, because everything else we have and work with in the amusement world is tied back to that, and just

forget 20 and 21.

2.3

MR. BAILEY: Well, the proposed -unless there's some language missing -- doesn't even
refer to amusement device. It says, personal
injury. Then it says, and that results in death,
significant disfigurement, permanent loss of the use
of body organ, member, function or system, a
compound fracture or other significant injury or
elements that requires immediate admission and
overnight hospitalization and observation by a
physician. Is there language missing there?

CHAIRMAN FOX: Not that I'm aware of.

But the definitions of -- and this definition came

out of the ASTM amusement device, and I believe it's

15.7, I believe it is, the standard. And then it

breaks it down even further into F2291.

MR. BAILEY: I mean, if the language, "as a result of being on or in the operation of the amusement device," that's currently in 20, was inserted in 21 where it says, report to the owner or operator -- it currently says, "as occurring on an amusement device." If that was taken out and that language, "as a result of being on, or the operation of, the amusement device," was inserted instead of, "occurring on an amusement device," and the rest of

the language stayed, I think it would -- I think that would do it.

I mean, it'd be more specific that it's -- we're not talking about, you know, breaking an ankle while getting off the ride or something like that. It has to be something about the ride itself.

CHAIRMAN FOX: Okay. I just discovered something. Does everybody have that document? Okay. Just making sure.

MS. O'CONNOR: If we're talking about code, yes.

CHAIRMAN FOX: Yes. Okay. Could you -- do that once more, please, and let's listen.

MR. BAILEY: The language that's currently in 20, which we're proposing to delete 20, but that phrase, "as a result of being on, or the operation of, the amusement device," was inserted at -- well, in paragraph 21, if the words, "occurring on an amusement device," was taken out and that phrase, "as a result of being on, or the operation of, the amusement device," was inserted there, then I think that would get -- cover everything.

CHAIRMAN FOX: But in 21, it says,

say, "as a result of being on, or in the operation of an amusement device."

2.3

MR. BAILEY: Yeah. It's as a result of being on, comma, or the operation of, comma, the amusement device.

CHAIRMAN FOX: So it would read:

Serious physical injury means a patron's personal
injury immediately reported to the owner or operator
as a result of being on, or the operation of -- that
should be, an amusement device.

MR. BAILEY: Or operate -- well, the language says, the amusement device. As a result of being on, or the operation of, the amusement device.

CHAIRMAN FOX: Okay. The amusement device, and that results in death, dismemberment, significant disfigurement or other significant injury that requires immediate inpatient admission and 24-hour hospitalization under the care of a licensed physician for other than medical observation.

In layman's terms, if you are, in fact, taken to a hospital, you are admitted, and you're kept for 24 hours, then we must -- "we" being the amusement industry, must notify the State of Tennessee; i.e, Ms. Jefferson, that we've

1 had an injury and a problem. 2 MR. BAILEY: Correct. If -- I mean, if that ultimately becomes the language. 3 CHAIRMAN FOX: Right. If that's 4 5 where we end up, then -- so if we deleted 20 and got rid of that, because the transportation clause in 6 7 there is what was bothering everyone. MR. BAILEY: Right. See, 21 doesn't 8 9 even -- it just -- they don't care how you got If you're admitted --10 11 CHAIRMAN FOX: That's correct. MR. BAILEY: -- and then that's it. 12 13 CHAIRMAN FOX: And that's what I say. 14 The transportation issue at 20 was a trigger, where 15 it wouldn't be now. 16 MR. BAILEY: It wouldn't be if that 17 language is changed, yes. 18 CHAIRMAN FOX: Right. 19 MR. BAILEY: Right. 20 CHAIRMAN FOX: Because again, we 21 don't know if -- but -- and it says, "immediate 22 admission." So that also takes out the possibility 23 of Larry, again, going to the doctor tomorrow and --24 MR. BAILEY: Yeah. 25 CHAIRMAN FOX: -- claiming an injury.

Sorry to pick on you, Larry, but you just happen to 1 2 be there. MS. O'CONNOR: I have a question --3 MR. MOORE: I'm looking for a free 4 5 ride. MS. O'CONNOR: -- on this. Is -- it 6 7 seems pretty clear 99 percent of the time. there potential situations where you don't really 8 know whether it's as a result of, for example, an 9 internal injury until after a doctor sees somebody 10 11 or, God forbid, an autopsy? CHAIRMAN FOX: That has been the 12 reason for the 24-hour thing. 13 14 MS. O'CONNOR: Okay. 15 CHAIRMAN FOX: Or in this case, 16 "overnight" is what it says in ASTM, but the 24-hour 17 is what -- you're able to do -- let's say that you 18 have a heart attack. 19 MS. O'CONNOR: Okay. 20 CHAIRMAN FOX: They're able to do the 21 testing; they're able to do the enzyme testing to 22 make sure that's what it was. Or heaven forbid, you 2.3 have a stroke or whatever on the ride of some type 24 or another. They can at least isolate that.

a medical condition or was it caused by the ride

25

1 action or interaction itself?

MS. O'CONNOR: Okay.

3 CHAIRMAN FOX: So in this case, what

4 we had talked about last time was making a

5 recommendation. Let me read this once more. Let

6 you all hear what's changed.

7

2.3

24

Serious physical injury means a patron's personal injury immediately reported to the owner or operator as a result of being on, or the operation of, the amusement device and that results in death, dismemberment, significant disfigurement, or other significant injury that requires immediate inpatient admission and 24-hour hospitalization under the care of a licensed physician for other than medical observation.

MR. BAILEY: Well --

CHAIRMAN FOX: Huh?

MR. BAILEY: I'm fine with that. I mean, that phrase "for other than medical observation" is, you know -- I don't know. It's kind of out there. I mean, they think, well, okay. He took a bad hit on the head but he may or may not have a concussion; we're going to keep him. Well,

is that just for medical observation?

I don't know. That'll probably all stay in there, but I could see that causing some heartburn at some point in time.

2.3

MS. JEFFERSON: I agree.

MR. BAILEY: Yeah.

MS. JEFFERSON: Is this going to cause us to interpret --

MR. BAILEY: I mean, do you have to get a statement from the physician, well, no, I'm keeping her here because she needs to be here or because of her injuries, not because of medical observation? You know, I don't know.

CHAIRMAN FOX: So you're saying take that out.

MR. BAILEY: Well, I'm just throwing it out there for discussion, Mr. Chairman. I — every time I read that, I was thinking, well, what kind of can of worms does that open up? You know, I mean, do I — you know, I mean, if I'm an amusement device operator and Kim has some injury and we take her to a hospital and they decide to keep her overnight, do I — I mean, well, do I report it or do I find out, first of all, are they just keeping her just to observe her? And if so, they don't have to report it.

1 CHAIRMAN FOX: That's correct. 2 MR. BAILEY: You know. So I don't know. And if you take it out, then it's -- you're 3 4 going to have to report it here regardless. 5 why --CHAIRMAN FOX: Do or do not. 6 7 MR. BAILEY: You would if they keep her overnight if you take that phrase out, even if 8 9 they do keep her for medical observation, if you 10 take it out. But if you leave it in, it's just one 11 of those things that, okay, well, they kept that 12 patient. My understanding is they're keeping her 13 overnight, but why? You know. Then do you have to inquire to the hospital, well, why did you keep 14 15 her --16 MR. STOCK: Absolutely. 17 MR. BAILEY: Yeah. 18 MR. FARMER: And that not always easy 19 to get that information, either. 20 MR. BAILEY: Yeah. And they're very 21 reluctant to tell you anything. 22 CHAIRMAN FOX: That's correct. 2.3 MR. BAILEY: Yeah. 24 CHAIRMAN FOX: But in most cases, we, 25 you, the amusement industry's going to find out --

if it was either through the family or whomever --1 find out if it was for medical observation. 2 MS. O'CONNOR: If we took that out, 3 4 Mr. Chairman, is that a particular hardship to the amusement -- I mean, 24-hour, even if it is medical 5 observation, is that undue burden on the -- because 6 7 how many times is this actually happening? A lot? CHAIRMAN FOX: Not very much. 8 9 MR. BAILEY: Would the amusement 10 device operator know that within 24 hours? 11 that's when it has to be reported. Again, the 12 CHAIRMAN FOX: Yes. 13 layman look at this or layman term is, if you're 14 injured and they transport you to the hospital and 15 you're spending 24 hours in the hospital, if you're 16 injured that bad, the State needs to be notified 17 that --18 MR. BAILEY: Well, yeah. And I --19 CHAIRMAN FOX: Again, that's the 20 bottom line. 21 MR. BAILEY: And I think probably 22 90 percent of the cases, that's exactly, you know, 2.3 maybe more. But you could have those that are like, 24 well, do I or don't I? You know, kind of thing.

And unless you have the more -- additional

information -- I mean, personally, if I was the operator, I would err on the side of reporting. If I wasn't sure, you know, I would report it.

MS. O'CONNOR: So is it going to hurt anything if we take out that observation clause? I mean, would that be a problem for the operator to report it?

CHAIRMAN FOX: Well, let's -- no.

Let's look at the bottom -- in the ASTM, it says,

other significant injury or illness that requires

immediate admission and overnight hospitalization

and observation by a licensed physician.

Those two are almost diametrically opposed, aren't they?

MS. O'CONNOR: Yeah.

MR. BAILEY: Actually, that last phrase or sentence -- or phrase of the ASTM definition is probably the better one, really. That requires immediate admission and overnight hospitalization and observation by a licensed physician.

Because like I said earlier, I have a little bit of a problem with that 24-hour hospitalization. I mean, if I'm released in 23 hours, I'm going to have to report it or do I?

1 You know, I mean, where this one just says it's 2 overnight. If they keep you overnight and you're under a licensed -- being observed by a licensed 3 4 physician, it's reportable. 5 MR. MOORE: I mean, that actually makes more sense, then, because if the accident 6 7 happened 2:00 o'clock today, they weren't admitted till 4:00 o'clock this evening, you won't know until 8 9 4:00 o'clock the next evening if they were going to stay 24 hours or not, and therefore, you're already 10 11 outside the guidelines that we required --12 MR. BAILEY: Right. 13 MR. MOORE: -- to report that. 14 MR. BAILEY: Exactly. Yeah. Because 15 you've got to report in 24 --16 MR. MOORE: Yeah. Because they may 17 spend 45 minutes to an hour or longer in an 18 emergency room --19 MR. BAILEY: Right. Exactly. 20 MR. MOORE: -- before they're ever 21 admitted. 22 MR. BAILEY: Yeah. 23 CHAIRMAN FOX: Yeah. But the problem 24 is, they're -- I'm not arguing. I'm just taking 25 another side. There's objective criteria there.

1 Overnight is open and ambiguous.

2.3

2 MR. BAILEY: Well --

CHAIRMAN FOX: At least with the 24 hours, there's definitive, objective criteria to report.

MR. BAILEY: Yeah. I mean, you've got to wait until the 24-hour has passed, I guess, to see if it falls into a reportable act, and I don't know how far along you may be in your 24-hour deadline to report it.

CHAIRMAN FOX: But again, if it's serious enough till they've transported and admitted -- once they're admitted to the hospital, to me, that's a trigger point to notify

Ms. Jefferson and Carlene and Ms. Rhodes about the incident. And then if they -- obviously, if it goes longer than 24 hours, then that -- to me, then that triggers the next thing to happen, in that, the inspectors come to investigate and then the third-party inspector would be called by the owner/operator to come in and perform -- to perform an inspection.

MR. BAILEY: I understand what you're saying. I still have the issue with "for other than medical observation," but I don't know how often

1 that will actually come up.

2.3

CHAIRMAN FOX: I can tell you that it's never come up.

MR. BAILEY: Yeah.

CHAIRMAN FOX: I've been doing --

I've been in this for 15 years, and the medical observation's never come up. If there's an accident, you know it.

MR. BAILEY: Yeah.

CHAIRMAN FOX: And you know, it's like when you go back and do the historical on the incidents that have been reported here, you know what's going on. To me, the -- I think that if we left -- if we did that -- well, again, the one I read there earlier -- taking 21 and making the modification, as you brought out earlier, I think if we do that, then I think what we've done is define some objective criteria.

And it certainly causes us at certain trigger points to notify the State of Tennessee

Department of Labor. And it affords the amusement industry the ability -- or I shouldn't say the ability, but it does not cause them to have to call every time somebody breaks a bone. And that sounded bad, but simply that -- I mean, you can

criteria or objective criteria.

again, I think that's -- there has to be defining

24

1 significant injury that requires immediate inpatient 2 admission and 24-hour hospitalization under the care of a licensed physician for other than medical 3 observation. 4 5 So if it's simply medical observation --6 7 MS. O'CONNOR: That wouldn't meet the criteria. 8 9 CHAIRMAN FOX: -- it's a non-reportable -- but again --10 11 MR. BAILEY: That's going to be rare. 12 CHAIRMAN FOX: If they're going to 13 admit you --14 MR. BAILEY: Yeah. 15 CHAIRMAN FOX: -- you're probably not 16 going to be there for medical observation. You're 17 going to be there for some musculoskeletal issue, 18 whether you have a broken bone. You could be there 19 because of a stroke or a --20 MR. BAILEY: Or internal injury. 21 CHAIRMAN FOX: -- internal injury, a 22 myriad of injuries. But I think that definition 23 right there, again, establishes the trigger points, 24 establishes the criteria, and allows the amusement

industry to go away from the serious incident thing

motion, let it be known by saying "aye."

|    | Page 47   |
|----|---|
| 1  | MS. O'CONNOR: Aye.                                |
| 2  | MR. MOORE: Aye.                                   |
| 3  | MR. MOORER: Aye.                                  |
| 4  | MR. FISHER: Aye.                                  |
| 5  | CHAIRMAN FOX: All opposed, like                   |
| 6  | sign. Okay.                                       |
| 7  | I would entertain a motion, make a                |
| 8  | recommendation to delete T.C.A get my bifocals    |
| 9  | straightened here to delete T.C.A.                |
| 10 | 68-121-101(20).                                   |
| 11 | MS. O'CONNOR: I'll make that motion.              |
| 12 | CHAIRMAN FOX: All right. We have a                |
| 13 | motion.   |
| 14 | MR. MOORE: I'll second.                           |
| 15 | CHAIRMAN FOX: We have a second to                 |
| 16 | delete T.C.A. 68-121-101(20). Any discussion? All |
| 17 | in favor of the motion, let it be known by saying |
| 18 | "aye."  |
| 19 | MS. O'CONNOR: Aye.                                |
| 20 | MR. MOORE: Aye.                                   |
| 21 | MR. FISHER: Aye.                                  |
| 22 | MR. MOORER: Aye.                                  |
| 23 | CHAIRMAN FOX: All opposed, by like                |
| 24 | sign. Okay. Sorry to belabor the point, but I     |
| 25 | just that's a very important thing.               |
|    |   |

| 1  | Okay. Recommendation regarding                     |
|----|--|
| 2  | legislative action to bring go-karts under the     |
| 3  | regulatory oversight of the State. When the law    |
| 4  | was first implemented, first brought into being,   |
| 5  | we had there was a lot of discussion about         |
| 6  | having inspectors. We didn't have inspectors.      |
| 7  | We well, we had elevator inspectors, but we        |
| 8  | didn't have anybody assigned to do those things.   |
| 9  | So at that point, there was a decision made not to |
| 10 | bring the go-karts into the mix. And I guess at    |
| 11 | this point, what's you all's feeling on that?      |
| 12 | MS. O'CONNOR: I don't see any reason               |
| 13 | why not.   |
| 14 | CHAIRMAN FOX: Okay.                                |
| 15 | MR. MOORE: I agree.                                |
| 16 | CHAIRMAN FOX: Mr. Moorer, what do                  |
| 17 | you think? Do we need to do that?                  |
| 18 | MR. MOORER: No.                                    |
| 19 | CHAIRMAN FOX: No?                                  |
| 20 | MR. MOORER: No.                                    |
| 21 | CHAIRMAN FOX: You don't want to                    |
| 22 | bring the go-karts in.                             |
| 23 | MR. MOORER: No.                                    |
| 24 | CHAIRMAN FOX: Okay.                                |
| 25 | MR. MOORER: We still need some                     |
|    |  |

discussion. You know? 1 2 CHAIRMAN FOX: Well, it does. 3 MS. O'CONNOR: Help me understand why 4 go-karts should be a protected class, as opposed to 5 everything else? MR. MOORER: Well, you know, I don't 6 7 think there's that many go-kart tracks around that I'm aware of in --8 CHAIRMAN FOX: Go ahead. 9 10 MR. MOORER: Go ahead. 11 CHAIRMAN FOX: You need to come to 12 Sevier County. 13 MR. MOORER: Okay. Okay. I just 14 said in one -- you know, that's a whole different 15 area of -- for an inspector. You know. In 16 category, he's now got to look at gasoline engines, 17 you know, he's got to look at fires, he's got to 18 look at a whole different category. So how much --19 will we have separate inspectors for this? You've 20 got -- I don't know of any amusement rides that have 21 the gas -- the fire is one of the big things for me 22 to the deal with a go-kart. 2.3 CHAIRMAN FOX: Right. But again, 24 remember that the State inspectors would be -- in

this area, will be functioning as either an audit

|    | Page 50  |
|----|--|
| 1  | kind of inspection or investigatory                |
| 2  | MR. MOORER: Yes. Yes.                              |
| 3  | CHAIRMAN FOX: audit inspection.                    |
| 4  | So we would not send our investigators out our     |
| 5  | inspectors out to perform an initial inspection on |
| 6  | those go-karts before we put them in operation.    |
| 7  | That, again, would be a third party. Correct me if |
| 8  | I'm wrong, Ms. Jefferson.                          |
| 9  | MS. JEFFERSON: Right.                              |
| 10 | CHAIRMAN FOX: That would be up to                  |
| 11 | MS. JEFFERSON: Third-party                         |
| 12 | inspectors versus compliance officers.             |
| 13 | CHAIRMAN FOX: Right.                               |
| 14 | MS. JEFFERSON: Yes.                                |
| 15 | CHAIRMAN FOX: They would be just                   |
| 16 | like our amusement rides, we would have to have a  |
| 17 | third party come in and inspect it, and they would |
| 18 | be separate and apart from anything that the State |
| 19 | would be doing.                                    |
| 20 | MR. MOORER: So then, the when                      |
| 21 | they're initially put in, a third party inspects   |
| 22 | them and says, they're okay                        |
| 23 | CHAIRMAN FOX: Right.                               |
| 24 | MR. MOORER: then our inspectors                    |
| 25 | just follow up after that.                         |
|    |  |

MS. JEFFERSON: But they won't be

|    | Page 53   |
|----|---|
| 1  | MR. MOORER: Yes.                                    |
| 2  | CHAIRMAN FOX: And again, part of                    |
| 3  | that is, you know, the fees will take care of       |
| 4  | whatever inspection audit                           |
| 5  | MR. MOORER: Yes.                                    |
| 6  | CHAIRMAN FOX: that we would end                     |
| 7  | up having or investigatory inspection audit.        |
| 8  | MR. MOORER: Right. Okay. Okay.                      |
| 9  | MR. BAILEY: Mr. Chairman.                           |
| 10 | MR. MOORER: As long as they are                     |
| 11 | trained and know what they're doing.                |
| 12 | CHAIRMAN FOX: Yeah.                                 |
| 13 | MR. BAILEY: I was just going to                     |
| 14 | point out that if these go-kart operations have     |
| 15 | employees, which every one I've been to do, they're |
| 16 | going to have to comply with the TOSHA regulations, |
| 17 | anyway, regarding gasoline, CMSDSs                  |
| 18 | MR. MOORER: Yes. Yes.                               |
| 19 | MR. BAILEY: to protect employees.                   |
| 20 | MR. MOORER: Yes.                                    |
| 21 | MR. BAILEY: So there's already                      |
| 22 | regulations in place.                               |
| 23 | MR. MOORER: Yes.                                    |
| 24 | CHAIRMAN FOX: It's already there.                   |
| 25 | MR. BAILEY: This would just be extra                |
|    |   |

subset of rules and regs in the ASTM standard --

Aye.

MR. MOORER:

1 MR. MOORE: Aye. 2 CHAIRMAN FOX: All opposed, by like sign. Motion carries. 3 4 Okay. Recommend a \$200 response fee 5 for accident or complaint. If complaint is unfounded, fee will be waived. We've discussed 6 7 this at the last meeting that if there is an investigation to be conducted, then Ms. Jefferson 8 9 or Carlene or Ms. Rhodes send somebody out to 10 perform that investigation and then compile a

11

12

13

14

15

16

17

18

19

20

21

22

2.3

24

25

report. If there are no problems, then the fee is waived. If they have to compile a report and there is a problem, then it's \$200. I think that was the recommendation. Was that your memory on that, too? Okay.

MS. BENNETT: Yes.

CHAIRMAN FOX: All right. So I would entertain a motion to -- or furthermore, let's discuss. Any discussion on that?

MS. JEFFERSON: Would there be a rule change? Is that what you're suggesting?

CHAIRMAN FOX: I -- there again,
that -- it's going to be our recommendation what -if that requires a rule change or a change in the
law, I don't know.

it would be held under the rules. 1 CHAIRMAN FOX: And then would that 2 rule happen after the first of the year or would 3 4 that start after the first of the year? 5 MS. JEFFERSON: With the same -- with all the other rules that we're proposing. 6 7 CHAIRMAN FOX: Right. Well, if we can handle it separately, then, I would entertain a 8 motion to recommend that a \$200 response fee for an 9 10 accident or a complaint be adopted, and if the 11 complaint is unfounded, the fee would be waived. MS. O'CONNOR: I'll make that motion. 12 13 CHAIRMAN FOX: We have a motion. 14 MR. MOORE: I'll second. 15 CHAIRMAN FOX: We have a second. 16 discussion? All in favor of the motion, let it be 17 known by saying, "aye." 18 MR. MOORE: Aye. 19 MS. O'CONNOR: Aye. 20 MR. MOORER: Aye. 21 MR. FISHER: Aye. 22 CHAIRMAN FOX: All opposed, like 2.3 sign. 24 Okay. Recommend the use of the Department's -- recommend an inflatable fee 25

structure. And I think this is where we settled on the last one. Recommend an inflatables fee structure of \$150 application fee and then \$40 per device fee.

2.3

MS. O'CONNOR: That's right.

CHAIRMAN FOX: I think we asked you all about that last time, didn't we? Yes, sir. Any discussion on that? Any questions, observations, suggestions?

Okay. I would entertain a motion to recommend the inflatable fee structure of one -- which consists of a \$150 application fee and a \$40 per device fee.

MS. JEFFERSON: And I know we were looking in the law, just to let you all know, and I believe the law actually states "device fee." I think there was talk as to whether or not, going forth, we needed to have one fee and call it a "permit application fee," because I think there's been discussion that we shouldn't have two fees. We created an extra fee in having the device fee. We can put it all together and call it "application fee," and Dan may want to verify whether or not the statute allows for a device fee.

CHAIRMAN FOX: All right.

MR. BAILEY: Well, this part of the 1 2 statute I'm looking at now says, the Department is authorized to charge a fee to be set by the 3 Department for the issuance of an annual permit. 4 5 And it goes on about the ones that show proof of ownership and things like that. 6 7 MS. JEFFERSON: I don't believe it addresses device fee. 8 9 MR. BAILEY: I don't think it does, I think I said -- brought that up last 10 11 time. And there's a penalty of \$300 if they're out 12 of compliance for each day. Yeah. That's the only 13 area that addresses the ability to charge a fee. 14 MR. MOORE: Could you read that 15 paragraph again, please, Dan? 16 MR. BAILEY: Yeah. And I'm reading 17 from T.C.A. Section 68-121-117(b). The Department 18 is authorized to charge a fee to be set by the 19 Department for the issuance of an annual permit, but 20 the Department shall not issue the permit until the 21 owner furnishes to the Department proof of insurance 22 for and proof of -- I don't know if you want to read 2.3 the whole thing or not. That's fine. 24 MR. MOORE: No. 25 But that's the only fee MR. BAILEY:

requirements listed in this section, that owner or 1 2 operator shall incur a penalty of \$300 each day enforceable by the Department until full compliance 3 4 is achieved. 5 MR. FISHER: And that's actually written in the law, the amount? 6 7 MR. BAILEY: Yes. CHAIRMAN FOX: 8 Yes. 9 MS. O'CONNOR: Each day. Okay. 10 CHAIRMAN FOX: And that's serious 11 enough to get your attention. 12 MR. BAILEY: Three hundred a day 13 would do it. 14 CHAIRMAN FOX: Yes. So what this 15 boils down to -- and you all keep me honest here. 16 It boils down to the fee structure that you and 17 Carlene and Ms. Rhodes all put together about the 18 charges for each of the devices. And then if we 19 included those and then we added in the inflatables 20 at \$40 per inflatable, is that where we were at the 21 last time when we finished our conversation? 22 MS. JEFFERSON: Well, we were looking 2.3 at the flat fee structure. 24 CHAIRMAN FOX: Right. 25 MS. JEFFERSON: And we were trying to determine whether or not it was reasonable under the circumstances, whether or not everybody, you know, would be treated fairly. I think that's where we were trying to get to.

The reason we went with the flat fee structure is because we looked at the law and it didn't say anything about devices. So that's why we were leaning towards the flat fee structure regardless of what the arguments are. I believe we have to go towards a flat fee, because the law doesn't allow us to charge for a device fee, too, only the permit application fee.

So if we're proposing some additional fees, we have to include them in the application fee. So instead of 150 application fee for inflatables and \$40 per device, we would have to come up with an amount --

MR. FISHER: So basically, could we not say that the application fee is \$150 plus \$40 per device, and that's the application fee amount?

MR. BAILEY: I think it's -- yeah -- a matter of --

MR. FISHER: If you're not calling it a device fee --

MR. BAILEY: -- semantics how you --

plus \$40 per unit that they have.

MS. JEFFERSON: Uh-huh. For the application --

CHAIRMAN FOX: Is that what we're

25 saying?

21

22

23

|    | Page 65  |
|----|--|
| 1  | MS. JEFFERSON: For the application               |
| 2  | fee.   |
| 3  | CHAIRMAN FOX: For the application                |
| 4  | fee.   |
| 5  | MS. JEFFERSON: And that would just               |
| 6  | be the inflatables. That's the only one we'd be  |
| 7  | required to calculate.                           |
| 8  | CHAIRMAN FOX: Correct.                           |
| 9  | MS. JEFFERSON: The others would be a             |
| 10 | flat fee.  |
| 11 | CHAIRMAN FOX: Can we do that,                    |
| 12 | Mr. Bailey?                                      |
| 13 | MR. BAILEY: I'm sorry?                           |
| 14 | CHAIRMAN FOX: Is that proper are                 |
| 15 | we if we coach it in that way, \$150 application |
| 16 | fee plus a \$40 per unit fee.                    |
| 17 | MR. BAILEY: Yeah. Well                           |
| 18 | CHAIRMAN FOX: Is the application                 |
| 19 | fee.   |
| 20 | MR. BAILEY: Is yeah. Is the                      |
| 21 | permit is the annual permit fee.                 |
| 22 | CHAIRMAN FOX: Right.                             |
| 23 | MR. BAILEY: As long as that's all                |
| 24 | called the annual permit fee                     |
| 25 | CHAIRMAN FOX: It's no different than             |
|    |  |

That's annually, too.

MR. FARMER:

sign. The motion carries. That will be our recommendation for a rule change.

2.3

There's another one on here, recommend enforcement of 50 percent increase in fee for untimely renewals.

If you all will refresh my memory. I know the other folks got it but I don't. Refresh my memory on what happens there.

 $\label{eq:ms.jefferson:} \mbox{ In the event that}$  they don't --

CHAIRMAN FOX: Yes.

MS. JEFFERSON: -- timely --

CHAIRMAN FOX: What do we do now?

MS. JEFFERSON: Well, currently,

we're not even enforcing that part. We haven't assessed a penalty against anyone for untimely.

What we're currently doing, if they fail to timely respond, and we have several in that position, what we currently do after sending them the correspondence, we send a seven-day letter asking them to comply or cease and desist. If they don't, we make a telephone call. If they don't respond to the telephone call, then we send -- we refer the case to the local authorities, because the law actually gives us

permission to refer that to local authorities so they can assess a Class C misdemeanor. But that's the criminal aspect.

2.3

And so that's what we do. That's how we handle it. We have not been assessing the \$300 against anyone at this point, because we've just mainly organized our process and we're trying to make sure that everybody is in compliance. So I think we've been lenient on that part.

We hope in the future to go ahead and start looking at that \$300 penalty, or if it's increased, then we can take a look at that. But I think we've been pretty lenient, because this is a new process. We didn't want complaints as to, you know, the fact that we were assessing that penalty. So we were trying to give them some leeway, because we're having to -- in essence, we're actually creating a program that should have been in effect back in 2009, but some people say that they weren't aware of what they were supposed to do.

So the first year, second year, we did not. But we plan to -- after this fee structure goes into place and we have a better fee structure, then we plan to assess those penalties

for untimely permits. 1 2 MR. BAILEY: I just want to point out one thing. Untimely -- if the late permit -- is 3 that what we're talking? Late -- that's a different 4 5 statute than the \$300. MS. JEFFERSON: Right. 300 is for 6 7 accidents. MR. BAILEY: Right. Well, no, 300 is 8 9 for if they've had an accident then they fail to get in compliance with the inspector's report. On the 10 11 fee -- late fee, it shall be increased 50 percent if 12 such fee is not paid within 60 days from the date of the invoice. 13 14 MS. JEFFERSON: So it's already 50 percent. 15 16 CHAIRMAN FOX: So it's there already. 17 MS. JEFFERSON: Yes. 18 MR. BAILEY: Yeah. It's in the 19 statute. 20 MS. JEFFERSON: That's fine. 21 CHAIRMAN FOX: Then we don't need to 22 do anything, unless you all want to change that. 23 MS. JEFFERSON: So we have a remedy 24 for that. But like I said, we've just been lenient

as far as -- you know, a lot of people said they

weren't aware of the amusement device law. So we've 1 2 really tried to be lenient with the employers. 3 MR. FARMER: Is that 50 percent -- is 4 that on inspections and the operating permit fees or 5 is that something else, Dan? MR. BAILEY: It says -- well, the 6 7 title of it's, Penalties for Violations of Chapter or Permit Fee Requirements. 8 9 MR. FARMER: Okay. 10 And B says: The fee for MR. BAILEY: 11 any inspection or operating permit under this 12 chapter shall be increased 50 percent if such fee is not paid within 60 days from the date of the invoice 13 14 for such inspection or permit. 15 MR. FARMER: So that would fall under 16 what you guys charge, too, right? Amusements. 17 MS. JEFFERSON: I know you were 18 concerned that it only fell under the Elevator Unit. 19 MR. FARMER: Yeah. That's what I was 20 thinking. It may only be regarding elevators, 21 because that's what we charge for late fees --22 payment of invoice of permit fees and inspection 2.3 fees. 24 MR. BAILEY: Yeah. Well, whenever --

in the law, when it refers to this chapter --

1 CHAIRMAN FOX: -- completed. 2 don't need to change that unless we want to increase it or decrease it, correct? 3 MR. BAILEY: Correct. 4 5 CHAIRMAN FOX: Does anybody have any energy to do either one? 6 7 MS. O'CONNOR: Well, if we're not getting the -- if we're not enforcing it, so to 8 9 speak, in terms of getting the penalty fees now, I 10 don't see the point in actually increasing it. So 11 otherwise, I would entertain. 12 CHAIRMAN FOX: That makes perfect 13 sense. 14 Okay. The other thing that we had 15 talked about was asking Mr. Stock to come up with 16 some recommendations on either course or line or 17 whatever. I sent you all -- and you did a very 18 good job. Thank you very much. 19 MS. O'CONNOR: It was wonderful. 20 MR. STOCK: Thank you. It was Mapsy 21 and I both worked on that. 22 CHAIRMAN FOX: Okay. 23 MR. STOCK: I drafted it, sent it in 24 to --25 CHAIRMAN FOX: Thank both of you very 1 much.

MS. O'CONNOR: It was great.

3 CHAIRMAN FOX: I appreciate it.

4 MR. STOCK: -- circulate around. So

it has some good industry input. So --

6 CHAIRMAN FOX: Okay.

MR. STOCK: Thank you very much for the opportunity to do it, as well. It's very helpful.

CHAIRMAN FOX: So have you all read that? Any recommendations? I feel I need to kind of be quiet, because I've -- well, I mean, we have zip lines and -- at our place.

MS. O'CONNOR: I actually did have a question. I don't know if this is relevant or not to our discussion. But just for my own education, what is the difference between a low element and a high element in terms of, you know, the --

MR. STOCK: In a -- yeah. You'll -that really refers in that section under traditional
challenge course. Low elements are basically -they're used for team building. They don't require
any kind of belay system. They're relatively close
to the ground. They are not even under the purview
of what you guys permit.

1 MS. O'CONNOR: Personally, my

2.3

inclination was to do it by -- based on budget, taking, you know, sales -- taking out sales and other things. I just honestly think that might be so comprehensive -- so involved. I don't know if that actually is a simple solution if I'm just kind of throwing that out there. I think that would be the most equitable.

CHAIRMAN FOX: Or -- just asking questions. Or do we charge by business? What are you presently doing, ladies?

MS. JEFFERSON: Do you want to speak to that?

CHAIRMAN FOX: How do you -- again, refresh my memory. How do you -- let's -- I don't want to bring out Mr. -- I don't want to single him out, but the ACME ropes course, how do you charge on that?

MS. BENNETT: Well, a lot of times, it's how they charge. You know, if you pay one flat fee and you do the course, that's one course and that's one fee. That's one device. But if you have multiple zip lines and you pay for one and you do it -- you have to pay again to do it again, then that's, you know, a separate device. If you've got

1 five separate zip lines and you've got to pay each 2 time to do it, that's five separate devices. CHAIRMAN FOX: Like -- I hate to --3 MR. STOCK: That's not how it 4 5 currently goes, but --CHAIRMAN FOX: -- use us as an 6 7 example, but in our case, we have four lines. That -- to me, that's a course. We have -- you make 8 9 a circuitous route and you come back to the point 10 you started. 11 MS. BENNETT: Uh-huh. 12 CHAIRMAN FOX: To me, that --13 MS. BENNETT: One. 14 CHAIRMAN FOX: That's one. 15 MS. JEFFERSON: As long as it's one 16 platform, right? One platform? 17 CHAIRMAN FOX: Well, there's eight 18 platforms, one on either end. You jump on the first 19 one, you land, traverse through the woods to go to 20 the next one, then you travel back across the valley 21 and then you get up and you go on another one. 22 MS. BENNETT: But that's a course. 23 CHAIRMAN FOX: That's a course. 24 MS. BENNETT: Yeah. That's kind of 25 what we've been going under is whether it's a course

1 or not. 2 CHAIRMAN FOX: Okay. MS. BENNETT: You know, if it's an 3 individual structure. 4 5 CHAIRMAN FOX: And what about your climbing elements? Not a climbing wall, but I know 6 7 at -- and I hate to -- you know, at the Church of God Home For Children in Sevierville, there was a 8 9 large structure where people would climb that and 10 then obviously, they would repel off a part of it or 11 come down the net. There were different ways to do that. 12 13 MS. BENNETT: Those are different elements in the same course. 14 15 CHAIRMAN FOX: Right. 16 MS. BENNETT: Yeah. 17 CHAIRMAN FOX: So would you have 18 charged them one fee? 19 MS. JEFFERSON: One course. 20 CHAIRMAN FOX: One course. Okay. 21 MS. BENNETT: Uh-huh. For one 22 course. Yeah. 2.3 CHAIRMAN FOX: All right. So do you 24 all want to change how they're doing that or make a

recommendation to change?

1

22

2.3

24

25

MR. FISHER: That seems like the best way to do it, because like any ride, if you're paying a ticket to do one thing, even if it's multiple elements, you're still doing them in sequence.

> CHAIRMAN FOX: Right.

MR. STOCK: What we're talking about now is different than what we've been doing, just to clarify. Because, like, we -- because the conversation we had was that a course -- basically, if you go up, go through a thing, and come back to the ground, that is considered -- was considered a course, because we're equating that with a device on that original form.

So for example, our location -- both of our locations, Ruby Falls and Fall Creek Falls, we have three different courses at one and five different courses at another. So we paid individual device fees on each of those courses as defined in the document that I gave you. If we're going to treat the park or location as a single course, someone pays a single fee and they can do all of it, then that would be -- then that is in line with what you guys are discussing now.

But what you're describing now is

1 different than what we have been doing. MS. JEFFERSON: Does that get into 2 3 the platform? I'm trying to remember how that goes from the platform to --4 5 MR. STOCK: It gets sticky to define. I mean, that's -- there's no question about it. And 6 7 then the number of the -- in fact, the permitting fee, as I've talked to people throughout the thing, 8 it's all over the board for -- there's courses that 9 are the same size as us that pay, you know, a far 10 11 smaller fee, because they define their whole thing 12 as -- even though there are five different -- you 13 know, different individual tracks that they can go 14 through, it's -- for them, it's an individual 15 course. So --16 MS. O'CONNOR: Well, and I think 17 that's why we were looking at changing --18 MR. STOCK: That's correct. Ιt 19 was --20 MS. O'CONNOR: -- the current 21 structure because it was so sticky. 22 MR. STOCK: Yeah. 23 MS. BENNETT: Because we are at the 24 mercy of what they report to us and the inspection

that they give us. Because if they say -- and the

inspector says it's all one course, even though, you know, we don't know what they charge, then, you know, we have to go by what it says.

2.3

And we also have other people who have individual zip lines and they pay individual fees on their zip lines, because if there's an accident on that course, it shuts the whole course down, okay? Because that's one device, we shut the device down. But they have maybe five zip lines, and if an accident happens on one, they can still operate four because they're separate devices. So it's kind of at their discretion how they want to handle that, too, you know.

Our inspectors is that we'll have somebody to physically go out there, look to see what's there, and we'll know. You were going to say something, ma'am. First of all, tell us your name and speak loudly, because I can't hear you.

MS. POWERS: Mary Audrey Powers with Navitat Canopy Adventures. So we actually do pay the way that Ms. Bennett described, because we have one ticket. And so I have a very similar course to Mr. Stock where if -- I have six trails, we just use different language. So I think that's where some of

this confusion is coming from. So where Don's 1 2 paying for six, I'm paying for one, but we have the same amount of actual trails. 3 So not to call myself out for paying 4 5 less than him, but because our language is -- you know, we have one course and six trails where he 6 7 has a park with six courses, that's why we pay for one and he's paying for six. 8 9 MS. BENNETT: But when you had your accident there, the whole course was shut down. 10 11 MS. POWERS: Yes. 12 MS. BENNETT: Correct? 13 MS. POWERS: Uh-huh. 14 CHAIRMAN FOX: Yes. 15 MS. O'CONNOR: Where if Don had had 16 an accident on his, just that one element -- that 17 one --18 MR. STOCK: Conceivably, we could 19 have done that, yes. 20 MS. O'CONNOR: Okay. Okay. 21 CHAIRMAN FOX: If I am an owner of 22 that company, I would pay the extra fee to do what 23 she's talking about. I want to keep --MS. O'CONNOR: As much --24 25 CHAIRMAN FOX: If I have an accident

on one, I want to keep the rest of them going.

MR. STOCK: Correct.

2.3

MS. BENNETT: Well, we have that with trampolines, too, because they have a trampoline park. And there might be an accident on one trampoline, you don't want to shut the whole thing down.

CHAIRMAN FOX: No. Okay. So is there a recommendation? Or do we simply let them administer the process to make that determination?

MS. O'CONNOR: The better I understand the current process, I would be inclined to maintain status quo on that.

CHAIRMAN FOX: Anybody have a different opinion?

MR. FISHER: That's probably the easiest way to do it, because it's kind of a self-pleasing thing. You know, if you want to pay a lower fee but know that if something happens, your entire park's shutting down, that's a business decision versus, hey, I want to be able to isolate the different elements out. Not elements, but the courses out so that if something happens, then only one gets shuts down. You have that option of keeping part of the park open. And I think that's a

business decision, if we're good that, outside of a 1 2 revenue issue. MR. MOORE: When the current 3 4 third-party inspectors come to your -- do they 5 charge you one fee for that or -- okay. And yours is multiple fees. 6 7 MR. STOCK: Generally, no. It's the same thing. They come in and they'll do -- for each 8 9 location. That's customary within our industry. 10 They treat the whole thing as one inspection even 11 though it's broken up. And even on our inspection 12 reports, it'll -- the individual courses are called 13 out. 14 MR. FISHER: But they're going to figure a price based on the size. 15 16 MR. STOCK: Exactly. Yeah. 17 MR. FISHER: It's not going to be, if 18 I've got one zip line --19 MR. STOCK: Right. 20 MR. FISHER: -- versus I've got 20. 21 MR. STOCK: Yes. The one thing to --22 I would mention, too, is that I have worked hard 2.3 to -- we've worked hard to delineate between the 24 commercial operations, which is kind of what we're

talking about, and the traditional challenge course.

My recommendation, as someone who's 1 2 out and around and doing all these things, is if it's a traditional challenge course, if it's not 3 predominantly created to be a pay-to-play, open to 4 5 the public, walk up, pay your money, go do your thing -- if it's more of a camp-based thing, I 6 7 would really recommend a flat fee for those folks. MR. FISHER: Well, I think the way 8 9 we're talking about it, it'll work itself out, because they're not concerned about keeping part of 10 11 it open if something happens. So they can just say 12 it's -- our park is one device --13 MR. STOCK: Okay. 14 MR. FISHER: -- and then just pay to 15 have one. So that'll add -- kind of automatically 16 let them charge -- or pay a lower fee. 17 MS. JEFFERSON: Are you referring to 18 the non-profit? 19 MR. STOCK: Well, they're not 20 necessarily non-profit but they're -- like camps. 21 There's camps who --22 MS. POWERS: Educational. 23 MR. STOCK: Yeah. It's educational 24 with -- how I defined it is traditional use, which 25 is what the challenge course world came from, the

1 team-building activities and the -- you know, the 2 kids, you know, coming out there as a school group or a corporation or a church youth group or 3 something like that. They're an intact group coming 4 5 to do this activity together, which is fundamentally different than the pay-to-play, walk up to pay your 6 7 money to zip line. CHAIRMAN FOX: Yes, but many years 8 9 ago, I went to a place called the Senior Executive Institute, and I paid \$4,600 to go on one of those 10 11 things. And they did that for a week, and they 12 liked to kill me. So for-profit or not-for-profit 13 or what have you --14 MR. STOCK: Yeah. That's why I don't even use the term "for-profit," because it's just 15 16 a -- yeah. I mean, it -- but the operation and the 17 intended outcome are entirely different. 18 CHAIRMAN FOX: Right. But this was 19 team building stuff. 20 MR. STOCK: Correct. Yeah. 21 CHAIRMAN FOX: Again, semi-commercial 22 but not. 23 MR. STOCK: Yeah. 24 CHAIRMAN FOX: Okay. 25 MS. JEFFERSON: Okay. And I just

want to make a point. Under one of the exemptions, we receive a lot of telephone calls about this, especially lately, from Boy Scouts. And there's usually a representative here. He's not here today.

But under the exemption it says, an amusement device does not include the following.

And at the bottom it says, an amusement device that is owned and operated by an non-profit, religious, educational, or charitable institution or association, if the device is located within a building subject to inspection by the State Fire Marshal and by political subdivision of the State under its building, fire, electrical, or related public safety ordinance.

We receive a lot of telephone calls about that, because at first, a lot of companies, they were under the impression that they fell under this exemption, but we had to explain phrase by phrase to let them know that, you know, number one, the rope course was not inside of a building. Okay. It's on the outside of the building, so this exemption doesn't apply.

So I just wanted clarification, because we generally have a representative to come to these meetings about this, and I know at some

1 point, they had talked about special treatment for 2 these type. So I just -- as we're talking about it, I just wanted to just make sure we're all on 3 the same page as far as that's concerned. 4 5 CHAIRMAN FOX: Well, again, I think our ultimate goal here is to keep everybody safe, 6 7 regardless of whether it's a charitable organization 8 or --9 MS. JEFFERSON: Exactly. 10 CHAIRMAN FOX: -- the ACME Commercial 11 Organization. 12 MS. JEFFERSON: I agree. I just 13 wanted to make sure I put it out there. 14 CHAIRMAN FOX: Money is -- to me, 15 money is not the issue. It's safety, in that 16 regard. 17 MS. JEFFERSON: Okay. So as far as 18 those are concerned, we'll keep doing what we're 19 doing. 20 CHAIRMAN FOX: Anybody have a problem 21 or a different -- okay. All right. I think we have 22 covered all the items, or have I missed one? 23 MS. BENNETT: Maybe I was asleep, but 24 I didn't hear the one about the Department's 25 proposed fee structure.

That was based on the number of companies, unless we 1 2 decided to do something different. 3 CHAIRMAN FOX: No. I may be totally 4 confused. I --5 MS. O'CONNOR: That is what they're talking about. Kim, is this the sheet? 6 7 MS. JEFFERSON: Yes. At the very bottom of the first sheet. It's where it starts 8 9 based on 200 companies. One to five, six to ten --I'm not sure if we're adopting this or if we changed 10 11 the amounts, but I thought that's what we were 12 looking at, because we have to go with a flat fee, a 13 permit application fee. 14 MS. BENNETT: And from the October 15 meeting, there was no changes, it was just to adopt 16 that --17 MS. JEFFERSON: That's what I 18 thought. 19 MS. BENNETT: -- with the inflatables 20 having a different fee structure. 21 CHAIRMAN FOX: You are correct. 22 had to run the hard drive back to come up with that. 2.3 You are correct. When all of it's settled out, the 24 only thing we were going to change, other than what

the proposal was, was the \$40 inflatables fee.

1 MS. BENNETT: Yes. 2 CHAIRMAN FOX: You're correct. the reason I did not have that on my list is the 3 4 reason I didn't bring it up. I missed it or left it off. 5 So with that being said, what's the 6 7 feeling of the Board? MS. O'CONNOR: Okay. Now that we're 8 9 including go-karts, would this work for go-karts? CHAIRMAN FOX: We would have to 10 11 include the fee for go-karts in there. 12 MS. JEFFERSON: We would probably 13 have to come back after the fact and take a look. 14 It would probably be best to come back and take a 15 look after the fact to see. Because of course, a 16 recommendation -- you know, you have to make the 17 recommendation. Then legislation has to be proposed 18 and passed. 19 MS. O'CONNOR: Right. But if we -if that's a consideration we take now and look at 20 21 fee structures with go-karts in our mind and try to 22 formulate a fee structure that works for --2.3 MS. JEFFERSON: With them, too. 24 MS. O'CONNOR: -- all of the above 25 including them --

MS. O'CONNOR: -- what would be an 1 2 average go-kart place in Tennessee? How many units would they have? 50? 40? 3 4 CHAIRMAN FOX: There's one that I'm familiar with that has 300. 5 MS. O'CONNOR: Well, that'd be over 6 7 51, then. So --MR. FARMER: I would say the average, 8 9 probably 40 would be -- give you my two-cent guess. 10 You know, just looking at them when I ride them, I 11 think 300's on the top side. MS. O'CONNOR: So that would be --12 MR. FISHER: Could we maybe -- and I 13 14 don't know without doing the math on 50 cars. 15 if we did a fee structure like the inflatables; just 16 in-group that in and say it's \$150 plus \$40 per 17 unit? 18 CHAIRMAN FOX: That's what I'm 19 saying. You would have an application fee plus a unit fee. 20 21 MR. FISHER: Well, yeah, per that 22 amount. 23 CHAIRMAN FOX: There's \$25 per car. 24 Per cart, as the case may be. 25 MS. O'CONNOR: Okay. That works.

|    | rage 71   |
|----|---|
| 1  | CHAIRMAN FOX: So I would entertain a                  |
| 2  | motion to adopt let me restate that. I would          |
| 3  | entertain a motion to make a recommendation that we   |
| 4  | adopt the proposed flat fee schedule that was given   |
| 5  | to us at the workshop. In addition to that, it        |
| 6  | would include the \$40 fee for inflatables and a \$25 |
| 7  | per unit fee for go-karts. Did we cover everything?   |
| 8  | MS. O'CONNOR: I would make that                       |
| 9  | motion.   |
| 10 | MS. JEFFERSON: And you said that \$25                 |
| 11 | is reasonable, based on your experience?              |
| 12 | CHAIRMAN FOX: Yes. That's normal                      |
| 13 | throughout the industry.                              |
| 14 | MR. BAILEY: That's 150 plus 25,                       |
| 15 | right?  |
| 16 | CHAIRMAN FOX: Yes.                                    |
| 17 | MS. JEFFERSON: Yes.                                   |
| 18 | CHAIRMAN FOX: We did you make the                     |
| 19 | motion?   |
| 20 | MS. O'CONNOR: Yes.                                    |
| 21 | CHAIRMAN FOX: We have a motion.                       |
| 22 | MR. MOORE: Can we discuss just a                      |
| 23 | little bit and  |
| 24 | CHAIRMAN FOX: If you'll second it,                    |
| 25 | we'll discuss it. Second it for discussion.           |

1 MR. MOORE: I'll second it.

2.3

difficult.

2 CHAIRMAN FOX: All right. Now we'll

discuss it. Then you could withdraw your second.

MR. MOORE: Okay. And my thought here is fair and equitable. The amount of inspection that's required on the inflatable at \$40 seems to me like that's considerably less inspection time and safety associated with that versus \$25 for a go-kart that could propel your body at 50, 60 miles-an-hour. The opportunity for injury, you know, just seems much higher, and the amount of inspection going into that seems much more

And I'm not saying that's right or wrong. I just -- I wanted to see what everyone else's thoughts around that were. If \$25 is right, then I'm fine with that. If it needs to be the same as the inflatables, then I'm fine with that also. I just -- I'm trying to wrap my head around -- is this the same? You know, are we doing right by charging \$40 per inflatable and only \$25 per go-kart.

MR. MOORER: It would just seem to me it's much more involved and intense inspecting a go-kart than it is an inflatable, because I start

thinking about all the things you've got to check on 1 2 a go-kart. I agree with you. MS. JEFFERSON: Could you --3 4 MR. FISHER: Well, we all --5 MS. JEFFERSON: -- talk about some of those things? 6 7 MR. FISHER: -- are talking about a permit fee, not an inspection fee. 8 9 MR. MOORE: Right. Right. 10 MR. FISHER: So they're paying a 11 third-party inspector to do the inspections. fee that we're talking about is just to handle the 12 13 paperwork for the State. 14 MR. MOORE: Right. 15 MR. FISHER: For the most part. 16 MR. MOORE: Right. And the things I 17 would -- like, brakes, throttle --18 MR. MOORER: Steering. 19 MR. MOORE: If the throttle sticks, 20 if the steering sticks, if it doesn't track 21 correctly, you have an opportunity for a wheel to 22 come off of it. I mean, there's a lot that the 23 inspector's going to be looking at. And I'm --24 again, I'm fine with the 25. I just wanted to be 25 sure that that's --

1 MR. MOORER: Yes. Yes. 2 MR. MOORE: -- what everyone felt like was where it needed to be, considering where 3 we're at with inflatables. 4 5 CHAIRMAN FOX: Let me -- and great 6 conversation. Let me ask a question. What do we 7 charge presently for an inflatable inspection? MS. JEFFERSON: \$25 per unit plus 8 \$150 for an application fee. 9 10 CHAIRMAN FOX: Okay. All right. 11 Just so you know what my reasoning is, we're going 12 to introduce this the first time. That is a low 13 figure, and it'll be much more palatable than the 14 40. 15 MR. MOORE: To go up? CHAIRMAN FOX: And it's easier for us 16 17 to come back in a year or a year and a half or two 18 years and do what we've done with the inflatables. 19 That was my --20 MR. MOORE: I'm good. CHAIRMAN FOX: -- motive for the 25. 21 22 MR. MOORE: I've already seconded it. 2.3 I'm good. 24 CHAIRMAN FOX: Well, you can change 25 it.

I like it. 1 MR. MOORE: No. No. 2 CHAIRMAN FOX: Okay. MR. BAILEY: Mr. Chairman, I'd just 3 4 point out -- I mean, you can go ahead, but it seems 5 a little premature until we get the law changed to really even worry about what the fee may or may not 6 7 So I'm just saying you don't necessarily have to make this decision right now on the go-karts. 8 9 MR. FISHER: Well, it might be better 10 to put it on the table what it would be so if 11 there's any kickback from the operators, at least 12 they know where they're standing as far as what it's 13 going to be when we get the laws implemented. 14 Whether that's good or bad --15 MR. BAILEY: Well, that's true. 16 I mean, they can look at what the fee structure is 17 now for other things and probably get an idea. 18 MR. FISHER: Yeah. 19 MR. BAILEY: You know, but I'm just 20 pointing out that it's not a decision that has to be 21 made today, if there's some uncertainty about 22 whether that's correct or not. 2.3 MR. FARMER: If the law passes, you 24 can use a fee structure that you already have,

right? I mean, it's not that -- if the law passes,

1 they will have a fee structure already in place that 2 they can use until this one gets changed, correct? Is that -- am I right or am I wrong about that? 3 MS. BENNETT: They could fall under 4 5 the flat fee until it's reworded, I guess, in the rules. 6 7 MR. FARMER: Yeah. MS. BENNETT: You know. 8 9 MR. FARMER: So it's not like the 10 legislative passes and they're not going to have a 11 fee to charge. You'll have a fee to charge, just 12 not this one yet. MR. BAILEY: Plus there's additional 13 14 fees that aren't collected now. 15 MR. FARMER: Yeah. 16 MR. BAILEY: So even if it just 17 starts out as just a flat fee until the rule -- it 18 could be put into -- do it somewhat like 19 inflatables. It's money that isn't coming in now, 20 anyway, so it would be additional money. 21 CHAIRMAN FOX: Okay. So will you 22 accept an amendment to your second that we -- and 2.3 I'll get you in just a second. Accept an amendment to the second to delete the discussion of the fee 24

for the go-kart and let that be adopted into their

calendar. Tuesday, March the 7th of '17, Tuesday, 1 June the 6th of '17, and Tuesday, September the 12th 2 of '17 and Tuesday December the 5th of '17. And I 3 4 agree with you. Coming back on the Tuesday after 5 Labor Day would be a rough time. MS. BENNETT: Uh-huh. And if it's 6 7 agreeable, we'll put it on the website, as well. I think that worked out well last year. 8 CHAIRMAN FOX: It did. 9 I would 10 make -- I would entertain a motion to accept the 11 dates as presented. 12 MR. MOORE: I'll make that motion. 13 MR. MOORER: Second. 14 CHAIRMAN FOX: We have a motion and a 15 second. All in favor of the motion, let it be known 16 by saying, "aye." 17 MS. O'CONNOR: Aye. 18 MR. MOORE: Aye. 19 MR. MOORER: Aye. MR. FISHER: 20 Aye. 21 CHAIRMAN FOX: All opposed, like 22 sign. Okay. The announcement of the next 23 24 meeting is -- the next regularly scheduled meeting 25 of the Elevator and Amusement Safety Board will be
